

Info on lectures and exercises VIP-2020 v.2 including streaming information etc.

November 9

Faculty of Science has decided that we can run the lectures physically. Lecture halls and exercise rooms are listed below. For exercises Team 1 will meet physically in odd week numbers and Team 2 in even week numbers. Find your team number under “people”. When physical exercises, the team must spread evenly in the two allocated rooms. Otherwise the exercises will be online. Zoom-links to online exercises are shown below.

Both auditoriums are large enough to allow a sufficient distance between all participants. However, we must all comply with a number of safety behaviors to avoid CoVid19 infection, including disinfection of tables etc. Please show up just before starting time (i.e. between 13:00 and 13:15 on Mondays and between 10:00 and 10:15 on Wednesdays) wearing face mask until seated and leave buildings just after end of lectures/exercises. Please check the Corona poster guidelines. More information on this will be given at the first lecture.

The lecture halls both have streaming equipment and we will try to use except for the first lecture 16. November (see zoom links below). However, we cannot guarantee that it will work so we recommend to attend physically. For now, we don't plan to record the lectures. However, this may change as we go along.

Lectures and exercises

Monday 13:15-15:00, lectures, Auditorium 2, HCØ, Universitetsparken 5

Wednesday 10:15-12:00, lectures, Auditorium 4, HCØ, *Universitetsparken 5*

Wednesday 13:15-15:00, exercises, ØV-4-0-02 and ØV-4-0-10, Biocenter, Ole Måløesvej 5
