

To Whom It May Concern

Recommendation

9. FEBRUAR 2021

I am pleased to write this letter of recommendation for Tudor-Laurentiu Dascalu who was a Teaching Assistant at the course *Vision and Image Processing* held at the Department of Computer Science, University of Copenhagen (UCPH) in 2020-2021. The course was taught during a Covid19 lock-down, and all teaching was unexpectedly conducted online from the start. This significantly made the TA-work more difficult. Tudor did excellent work during this complicated situation, and all his students passed the exam.
