Statistik Skema A

35	kunne besvare dette evalueringsskema
11	har besvaret dette evalueringsskema
31,43 %	svarprocent: (11/(35)) * 100

Skema A: 7.5 ECTS-kursus

1	**Min gennemsnitlige ugentlige arbejdsindsats på dette kursus har været på (inkl. undervisningstimer, forberedelse, skriftligt arbejde osv.):**		**(10 besvarelser)**
	Under 10 timer	0	0,00
	10-15 timer	1	10,00
	15-20 timer	4	40,00
	20-25 timer	3	30,00
	Over 25 timer	2	20,00

Skema A: Evaluering af kurset

1	**I forhold til mine egne forudsætninger oplever jeg, at kursets faglige niveau er:**		
	Alt for lavt	0	0,00
		2	18,18
		2	18,18
		3	27,27
	Alt for højt	4	36,36
2	**Jeg oplever arbejdsbyrden på kurset som:**		
	Alt for lille	0	0,00
		2	18,18
		3	27,27
		4	36,36
	Alt for stor	2	18,18
3	**Jeg mener at have opnået kompetencerne beskrevet i kursusmålene**		
	Helt uenig	2	18,18
		2	18,18
		3	27,27
		3	27,27
	Helt enig	1	9,09
4	**Jeg oplevede, at der var en god sammenhæng mellem de forskellige delelementer (forelæsninger, øvelser m.v.), der indgik i kurset**		
	Helt uenig	0	0,00
		2	18,18
		2	18,18
		4	36,36
	Helt enig	3	27,27
5	**Jeg synes, at undervisningsmaterialet var relevant i forhold til kurset**		
	Helt uenig	0	0,00
		2	18,18
		2	18,18
		2	18,18
	Helt enig	5	45,45
6	**Jeg synes, at jeg har fået relevant faglig respons på mit skriftlige og mundtlige arbejde på kurset**		
	Helt uenig	0	0,00
		1	9,09
		3	27,27
		6	54,55
	Helt enig	1	9,09
7	**Jeg synes, at jeg har haft adgang til de nødvendige informationer omkring kurset**		
	Helt uenig	0	0,00
		0	0,00
		3	27,27
		5	45,45
	Helt enig	3	27,27
8	**Jeg synes samlet set, at kurset har været udbytterigt**		
	Helt uenig	2	18,18
		3	27,27
		0	0,00
		3	27,27
	Helt enig	3	27,27
9	**Hvad fungerede godt ved kurset? Og hvad var grunden?**		**(11 besvarelser)**

- Well structured, really interesting topics.
- It is something useful for the future
- The patience of the teachers!
- The way that all course material was uploaded from the beginning to absalon was really, really good.
- Nice teachers, good patience
- Very interesting subject.
- It was very interesting and the assignment topics were fun to do

- Good view into the field of computer vision
- get noticed the importance of math.

10 Jeg vil foreslå følgende forbedringer (11 besvarelser)

- More simple assignments. Perhaps it is more relevant to have an introductory course on VIP instead of this course. Change the course schedule in order to finish on the second block (before Christmas brake).
- The level is far too high, it is really difficult to follow the classes and it is often impossible to understand everything after class. I would like to fully understand what I am doing instead of getting lost trying to write so difficult assignments. In short, I think the course should be more adequate to people with no computing/maths background.
- I have two lecturers in this course and one of them is from French. I know he is good but I am confused by his accent, this really influences my learning badly.
- "Programming Computer Vision with Python" by Jan Erik Solem has been paramount in solving assignment 1 &2. Something similar is needed for assignment 3 &4. Larger room.
- Large part of the participants didn't know calculus prior to the course, which made it difficult to grasp
- Higher requirements pre course
- The level for people with limited mathematical background was a bit difficult, and as such, the team assignment work load was highly imbalanced
- for the students who have no background, a math and programming crash course is definitely needed.
